

## CHASSIS GREASE

### PRODUCT DESCRIPTION

Chassis Grease is calcium-based grease formulated to meet a wide variety of lubrication functions. Chassis Grease is manufactured using a special process, which allows the product to retain its consistency and oil retention properties overtime. The product demonstrates exceptional stability and will not result in oil separation overtime.

Chassis Grease is a versatile lubricant suitable for use in a wide variety of applications. The product can be used in general automotive, industrial and agricultural lubrication of equipment and machine parts

### APPLICATIONS / BENEFITS

- ❑ Resists oil separation over time.
- ❑ Thermally stable.
- ❑ Mechanically stable.
- ❑ Versatile, multi purpose.

### TYPICAL CHARACTERISTICS

TEST DESCRIPTION	METHOD	TYPICAL RESULTS
NLGI Grade		# 2.5
Thickener Type		Calcium
Colour		Dark Green
Texture		Tacky
Dropping Point, °C	ASTM D-2265	> 85
Penetration @ 25°C	ASTM D-217	220 - 250
Rust and Corrosion Test	ASTM D-1743	PASS
Water Resistance		Yes
